

IPA 2000

IPA 2000 – Infusion Pump Analyzer is the latest addition to our line of high quality Biomedical test instruments. It is feature rich and 'affordable'.

IPA 2000 – Infusion Pump Analyzer utilizes our Patented (7669471) technology to quickly and accurately measure flow, volume, backpressure and occlusion pressure without elaborate setup procedures.

IPA 2200 is compact, light weight and easy to use. It is ideal for testing all types of Infusion Pumps. Test results can be easily stored internally and uploaded to a PC via serial port for record keeping.

IPA 2000

Features

- Patented Technology for fast and accurate Flow measurement.
- Measures Flow Rate, Volume, Occlusion and Backpressure
- Tests all Infusion pumps including Syringe Pumps
- Test results are automatically saved to internal flash.
- Stored test data can be uploaded to a PC via serial port.
- Large graphics LCD with full function keypad.
- Compact, Lightweight, and Rugged
- Menu Driven and easy to operate
- Best value.

Specifications

- Flow Rate: 1 mL - 999 mL/h
- Accuracy: \pm 1%
- Volume: 0 - 999 mL
- Accuracy: \pm 2%
- Occlusion Pressure: 0 – 30 PSI.
- Back Pressure: 0 – 300 mmHg.
- Accuracy: \pm 1%
- Power: 9 V DC Adapter
- Dimension: 6 x 4 x 3 Inches
- Weight: 1 Lbs.
